Introduction

I'm Alexey. I'm mainly a front-end engineer with more than 2 years of experience. I enjoy building sites & apps. My focus is React.

Experience

05/2023 - until now

Software Engineer
ЕрмакДом
ErmakDom v1.0 was local mobile application for a construction company. My responsibilities included starting the project from scratch, selecting appropriate technologies, and maintaining constant communication with clients.

Technogies:
Frontend: TypeScript, React Native, JSON, UI/UX, CSS

ErmakDom v2.0 is now a full-featured multi-role application. It includes logging capabilities and various roles for task management: administration, project management, finance, supply and technical supervision.

My responsibilities encompassed the entire project lifecycle:
- Designed the application architecture
- Developed an API to support its functionality
- Selected an appropriate database and designed its schema
- Employed suitable technologies to bring the vision to life
- Translated business logic into application features
- Maintained open communication with clients throughout the process.

Currently, I am actively developing the existing project by implementing new ideas suggested by clients.

Technogies:
Frontend: TypeScript, React Native, Redux, JSON, REST, UI/UX, CSS
Backend: Golang, PostgreSQL, Redis

04/2021 - 10/2022   **Frontend Engineer**
Verdeco

As a Frontend Engineer at a logistics company, I was responsible for handling frontend tasks using TypeScript and React. My key responsibilities included implementing the frontend with React and Redux, creating UI/UX based on requirements, adding new UI components, and supporting legacy code through refactoring and bug fixing.

The project primarily focused on logistics, accounting, and finance. Additionally, it included CRM, notification, and statistical systems, various handbooks, as well as sections for other activities.

That was large-scale project that combined logistics, accounting, and finance.

Technogies:
Frontend: TypeScript, React, HTML5, CSS, JSON, REST, UX, Webpack

Knowledge and skills

Languages:

| Russian (proficient) | Ukrainian (proficient) | English (advanced) | Czech (advanced) |

Skills:

HTML	TypeScript	JavaScript	React	React Native	React Router	Next.js
Vite	Webpack	Redux	Redux Saga	CSS	Styled Components	SCSS
Tailwind	Framer Motion	ESLint	Prettier	Figma	Jest	Git	GitLab	Redis
PostgreSQL	PL/pgSQL	OracleDB	PL/SQL	Golang	Docker	CI/CD
SonarQube	OpenStack	Openshift	GraphQL	RTK Query	Bootstrap

Education

Level of education   **Bachelor's**

2022 - until now	**Faculty of Information Technology CTU** Software Engineering CTU FIT (Czech Technical University, Faculty of Information Technology) is a prestigious institution known for its excellence in technology education.
2018 - 2022	**1. Slavic Gymnasium (1. Slovanské gymnázium a jazyková škola s právem státní jazykové zkoušky)** Střední Škola 1. Slavic Gymnasium is a high school focused on providing quality general education.
